EXPERIENCE	

CURATOR OF MALACOLOGY

Santa Barbara Museum of Natural History Department of Invertebrate Zoology, Santa Barbara, California July 1982 to present

Research Emphasis

Ecology, functional morphology and systematics of marine bivalve molluscs

Editorial Experience

Project Manager and Editor for *Taxonomic Atlas* publication series; responsible for coordinating collections, research, publication and distribution for a 14 volume (4,000 page) monographic series on the marine fauna of California. The *Atlas* is now being sold in 36 countries, as well as 39 states in the USA.

Co-Editor for the Mollusca for the peer-reviewed journal *Zootaxa* (2005-2006)

Collection Management

Management of 3.0 million specimen invertebrate collection and associated database (available online at www.sbcollections.org)

Training and supervision of curatorial staff and volunteers

Writing collection policy and procedural documents

Beta testing and development assistance for Specify collection database

Educational Outreach

Interactive tours of collection and research facility to school groups using museum specimens - Los Marineros Program

Design of elementary school curriculum to include museum objects and interaction with museum professionals

Curriculum design and instruction of high school students in invertebrate zoology research and public presentations - Quasars to Seastars Program http://www.sbnature.org/education/teen.php

Professional Workshops _____

Workshop on the Marine Bivalved Molluscs of Eastern Thailand, Chanthaburi, Thailand 21 August - 4 September 2005.

Teaching researcher for group of 14 international students on the ecology, biology and taxonomy of marine bivalve mollusks.

International Marine Bivalvia Workshop, Keys Marine Laboratory, Long Key, Florida 19-30 July 2002.

Teaching researcher for group of 12 international students on the ecology, biology and taxonomy of marine bivalve mollusks.

Specify Museum Collection Database Beta-User Training. University of Kansas, Lawrence, Kansas; 10-12 December 1998.

Development of user front end for collection database system through beta testing. Collaborating with systems administrators from 10 other museums around the world.

Biological Collections Information Providers Workshop; University of California, Berkeley; 13-15 January 1995.

Intensive training on making databases available through gophers, WAIS, and the World Wide Web. Instructors from Cornell University, University of Michigan and UC Berkeley.

- Third International Workshop on the Malacofauna of Hong Kong and Southern China Two week workshop conducting research on the offshore bivalve mollusks of Hong Kong; 13 April 1 May 1992.
- International Workshop on Marine Bivalvia; Moss Landing Marine Laboratory, California; 5 19 July 1991 (Primary organizer of workshop).

Meetings, Workshops and Symposia Hosted _____

- A Hands-on Introduction to Marine Bivalve Molluks. Santa Barbara Museum of Natural History, 12 May 2008. Southern California Association of Marine Invertebrate Taxonomists.
 - Instructor for workshop on bivalve taxonomy for group of 25 marine biologists.
- Contemporary Research on Mollusca. Western Society of Malacologists, La Jolla, California; 27 June 1993.
- International Workshop on Marine Bivalvia; Moss Landing Marine Laboratory, California; 5 19 July 1991 (Primary organizer of workshop).
- Joint meeting of the American Malacological Union and the Western Society of Malacologists; University of California, Berkeley; 30 June 5 July 1991.
- Symposium on bivalve mollusks (*Marine Bivalve Research in the Next Century, a Review of the Current State of Our Knowledge and Directions for the Future*); AMU/WSM, University of California Berkeley; 1 4 July 1991.
- Current Directions in Alaskan Malacology; Western Society of Malacologists; University of Washington; 18 22 June 1990.
- Annual meeting of the Western Society of Malacologists; University of California, Berkeley; 18-21 August 1985.
